

ICMPD Generic Job Profile

PROJECT MANAGER¹

Functional Overview

The Project Manager is responsible for the direction, management, coordination, implementation, control and completion of project(s) and the management of project team(s) while remaining aligned with the strategy, goals, regulatory framework, standard administrative practices and operating procedures of ICMPD and with partner and donor agreements. S/he actively contributes to project and capacity development and resource mobilisation efforts.

Key Results

Project Cycle Management: In collaboration with all relevant stakeholders, project plans, scope, objectives and budget(s) effectively determined and developed, ensuring resource availability and technical expertise allocation. Milestones developed to track progress and manage any changes in project scope, schedule and costs. Quality standards determined to ensure the quality level of the project(s). Risks effectively identified and analysed. Project performance tools developed and regularly measured using appropriate techniques. Project and donor reporting accurately drafted and delivered in a timely manner.

Project Resources Management: The type, quantity and quality of resources required to achieve the project's goals accurately identified during the project planning phase together with the respective internal partners and within the project(s) budget(s). The project team(s) skills sets, roles and responsibilities clearly defined. Contracts effectively negotiated between subcontractors, consultants, or service providers, ensuring a transparent competitive basis in line with ICMPD's rules, regulations and procedures.

Stakeholder Management: Stakeholder expectations and working relationships effectively managed and communication regularly undertaken to ensure all stakeholders are kept informed. Project updates created and circulated to stakeholders and the project team(s).

Project Team Management: Project team(s) knowledge base developed, ensuring the project(s) benefit from the right knowledge, experience, and skills sets and that team members are committed to the goals of the project(s). Project team(s) effectively motivated and mentored to ensure the highest quality project deliverables. Evaluation of the performance of project team(s), experts, consultants and service providers regularly and systematically undertaken in accordance with ICMPD's performance management procedures.

Project Development and Resource Mobilisation: Substantive input provided to the design of projects and to portfolios that support the achievement of capacity development goals and
